 **CONCEPTS** our

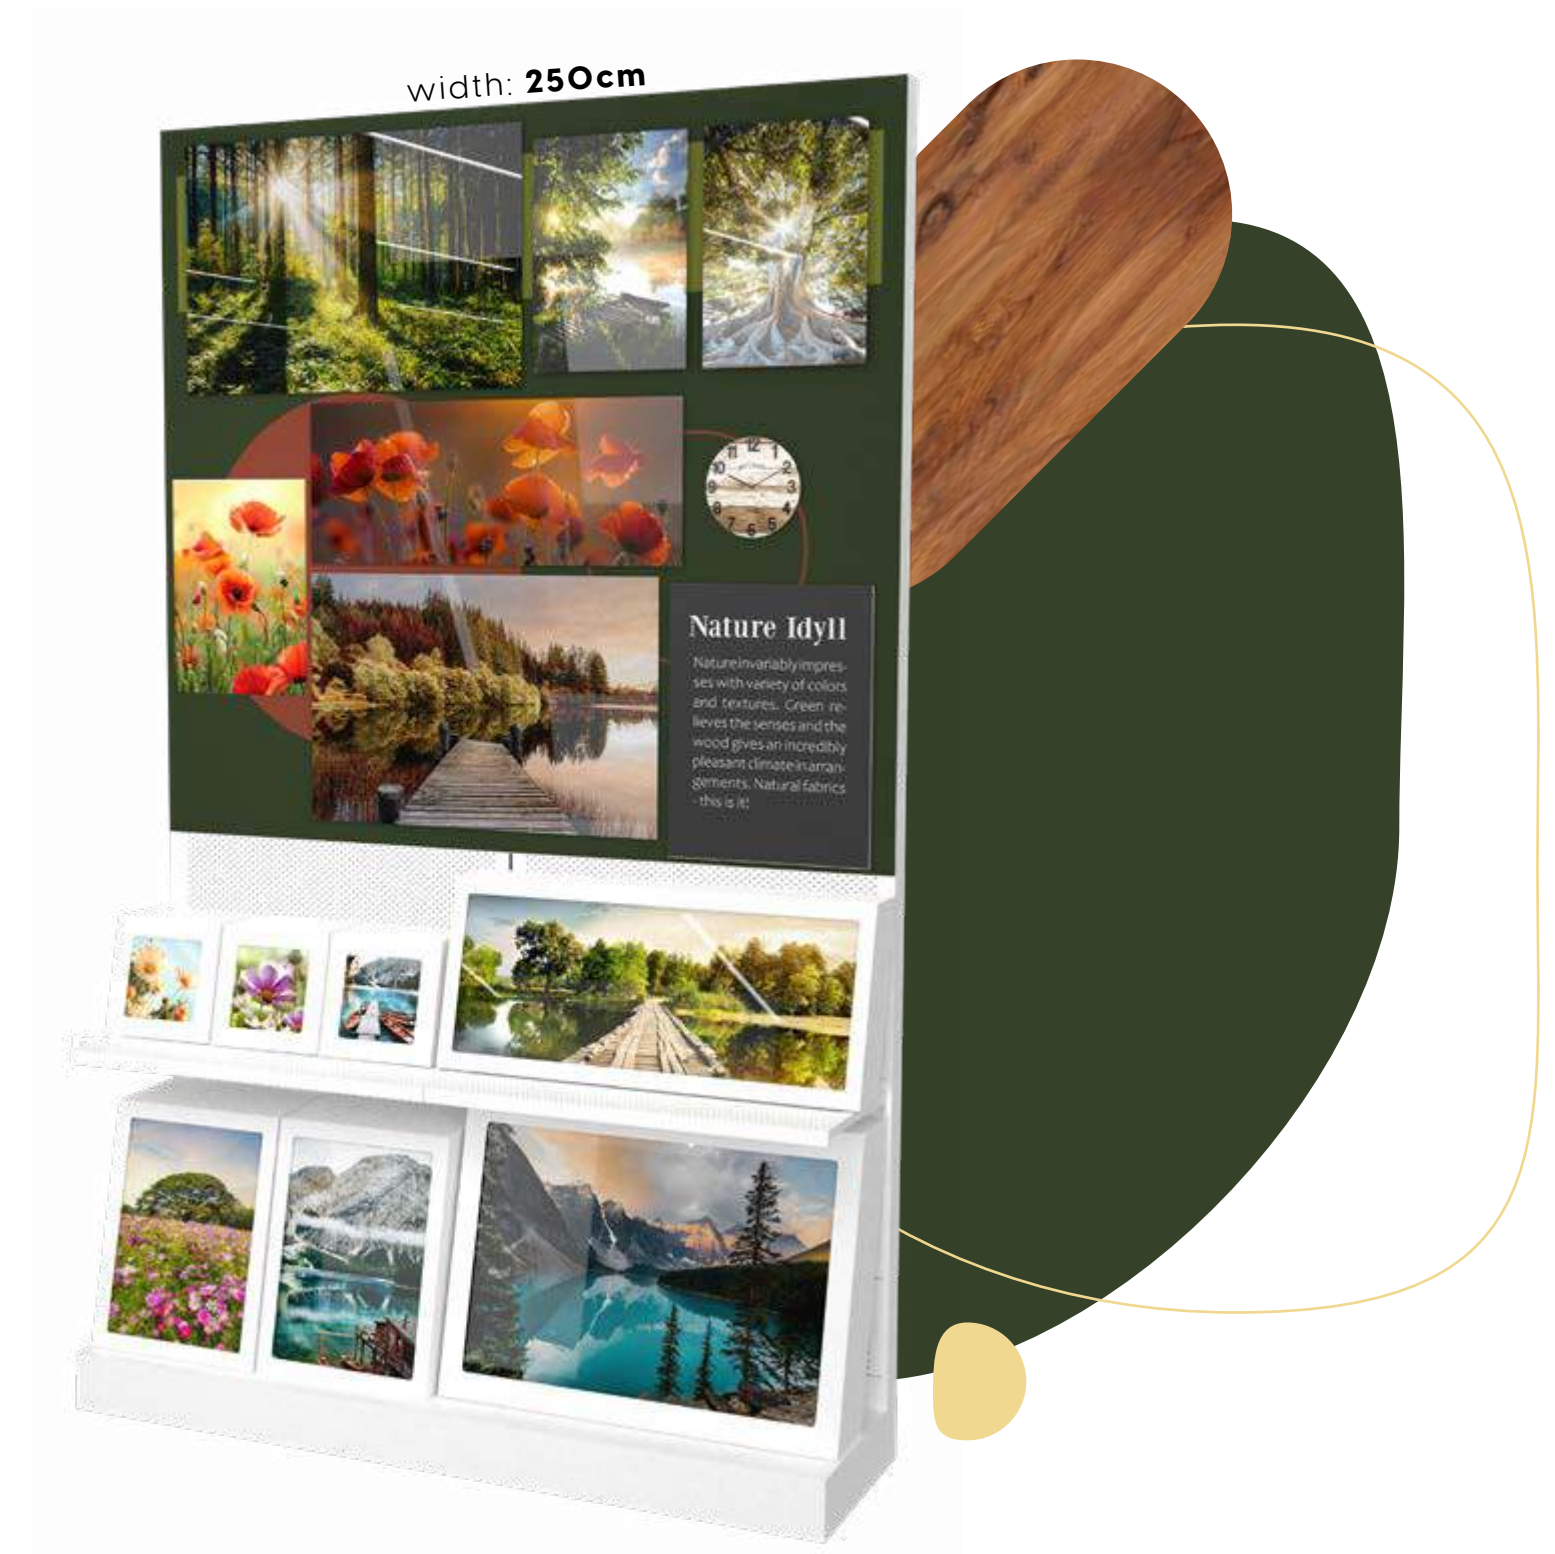

BASIC: nature idyll

#wood #sephia #green

Nature invariably impresses with variety of colors and textures. Green relieves the senses and the wood gives an incredibly pleasant climate in arrangements. Natural fabrics - this is it! Listen to the noise of the wind and relax in your small private forest.

basic:
nature **scandi**

#50 shades of black #raw materials #natural textures

Scandinavian is not only about coziness, soft blankets and hygge. This mysterious land has its other side - a bit raw, but still real and natural. Wood and stone are essential in these arrangements. Artistic black and white shots of nature and natural shades of brown and green create harmony. There is no chaos here. Only nature in the lead role. Fog, water and the sound of trees!

BASIC:
nature **cosmos**
#cosmic #blue #stars

Cosmos entered the salons at the speed of light. Milky Way, Planet and Moon are now number 1 in interior design. Choose an unforgettable journey through the galaxy in all shades of gold, silver and blue.

BASIC: *nature relax*

#sea&sun #travel #natural fabrics

The theme referring to the popular marine style evokes the most pleasant associations. Holidays, sun, sea, travels - we dream about all of this and would like to go back there every day. Creating the right climate seems to be at your fingertips. Bright, natural colors, rattan furniture, lots of textiles - that's all it takes to turn your interior into a holiday resort.

BASIC: kitchen

#colorful #taste #stylish

The kitchen, as one of the most important rooms in our home, also deserves its own decoration. Properly combining furniture with smaller elements such as handles, textiles or pictures allows you to create a style in the kitchen full of various flavors - not only culinary ones.

classic: **romantic**

#romantic #lovely #shades of pink and blue

Sweet style with the scent of cotton candy and the first days of spring or summer. Could there be anything more beautiful? Sit comfortably in a soft armchair, cover yourself with a thickly woven blanket and drink tea from your favorite cup. Relax! Classic romantic is a style that you can fall in love with at first sight.

classic:
country
#rustic #muted colors #florals

This style is a dream come true for a home idyll. It is connected by natural materials such as wood, wicker and patterned textiles. Flowers are a common theme. This is how it used to be in elegant country houses with a warm and cozy atmosphere.

modern: glamour

#dark colors #shine #baroque vibe

Traditional glam is associated with heaviness, but at the same time it is full of shine and delights with its majesty. It has gained a lot of lightness thanks to delicate decorations and the ubiquitous velor that reflects light. Gold blends beautifully with dark green and warm shades of red. Glamour is definitely a synonym of maximalism and it probably won't go out of fashion for a long time!

modern: feminine

#feminine #soft #goldie

Future is female. Pink, gold and black has never looked so good. Delicate and light golden accents perfectly harmonize with floral motifs and sensual portraits of women. Beautiful and motivating quotes will definitely help you conquer the world, because who if not you?

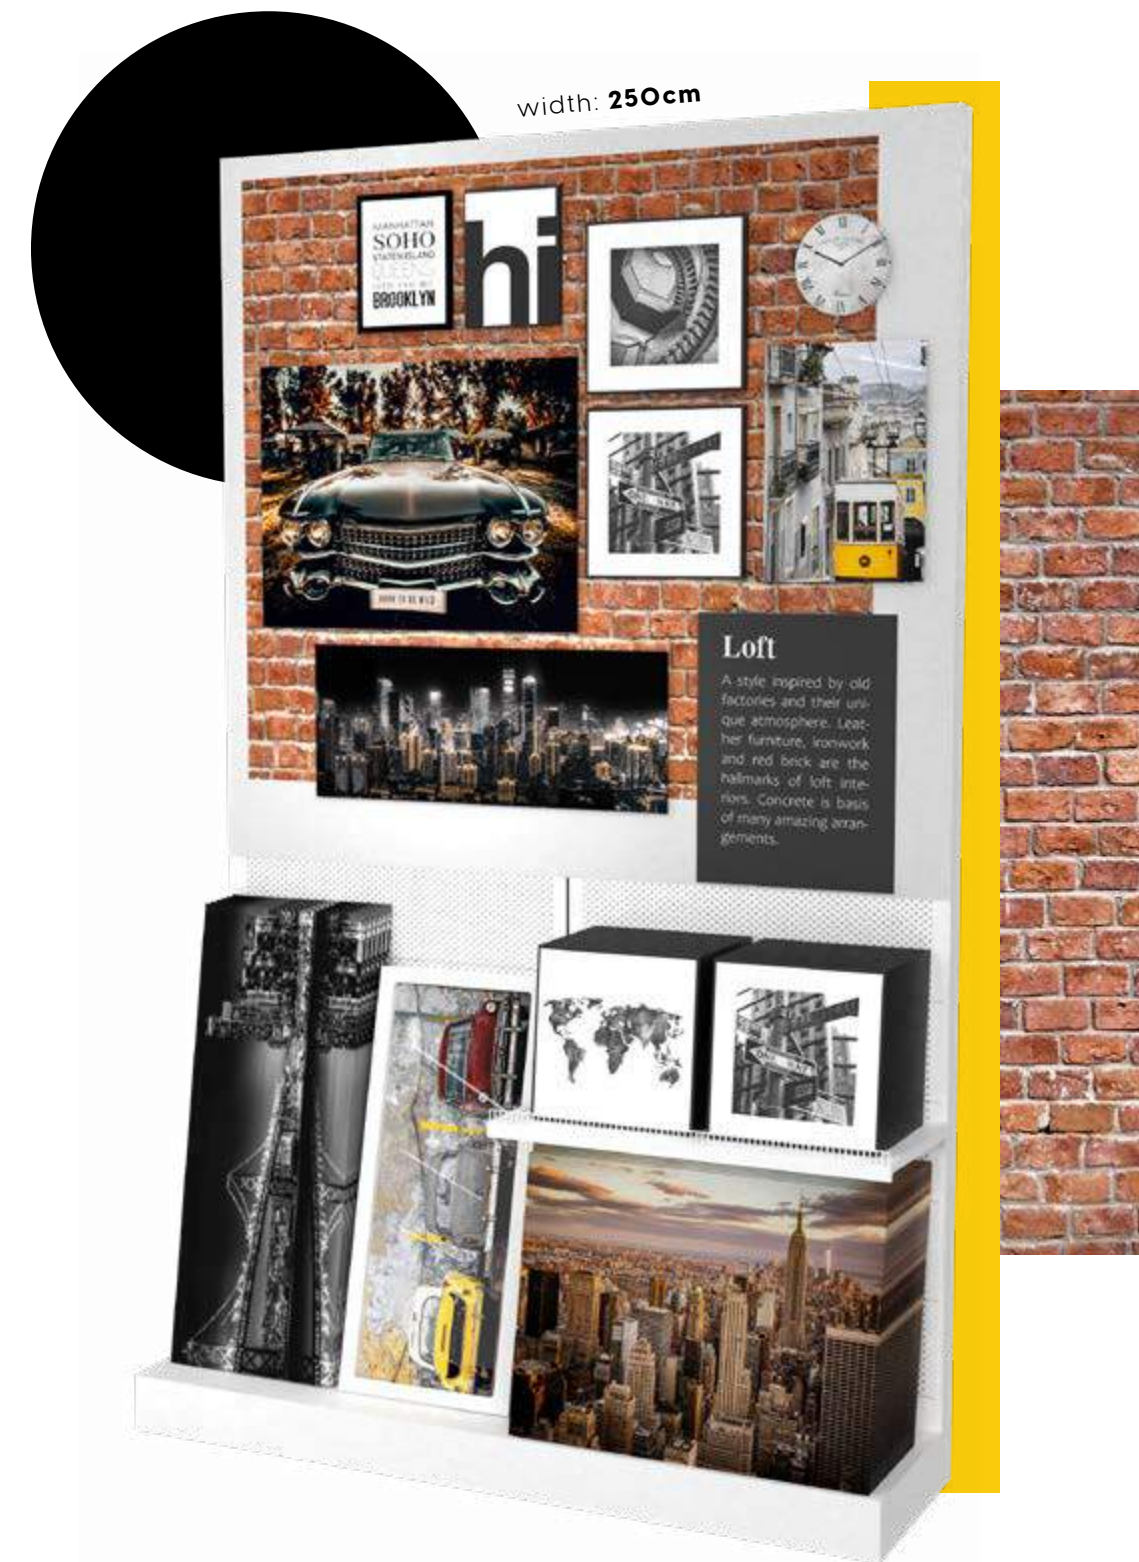

MODERN: **LOFT**

#industrial #leather #metallic

A style inspired by old factories and their unique atmosphere. Leather furniture, ironwork and red brick are the hallmarks of loft interiors. It is thanks to the industrial style that concrete has penetrated the world of interiors and settled in it well, being the basis of many amazing arrangements.

modern: *japandi*

#elegance #pure #minimalism

This style, extremely popular in recent times, is a combination of Scandinavian coziness with timeless elegance outright from Japanese interiors. Here you will find minimalism hidden in simple forms and accessories such as: dried grass, aromatic decorations or graphics in the form of sketches.

modern: **boho & botanic**

#cosy #light #natural

Everyone knows these most popular styles of recent seasons. Arrangements in boho and botanic are the essence of coziness. They consist of warm and soft fabrics, enveloping candlelight and the delicacy of light wood. Shades of green mixed with light colors are a composition that encourages you to rest and spend time at home and at the same time feel like in the bosom of nature.

MODERN: YOUNG & FUN

#colorful #original #modern

The youngest generation of buyers are now looking for their own style that could express their defiant personality. They are looking for something that will allow them to stand out and it will be a bit of a wink. Their interiors are highly eclectic and full of original accessories.

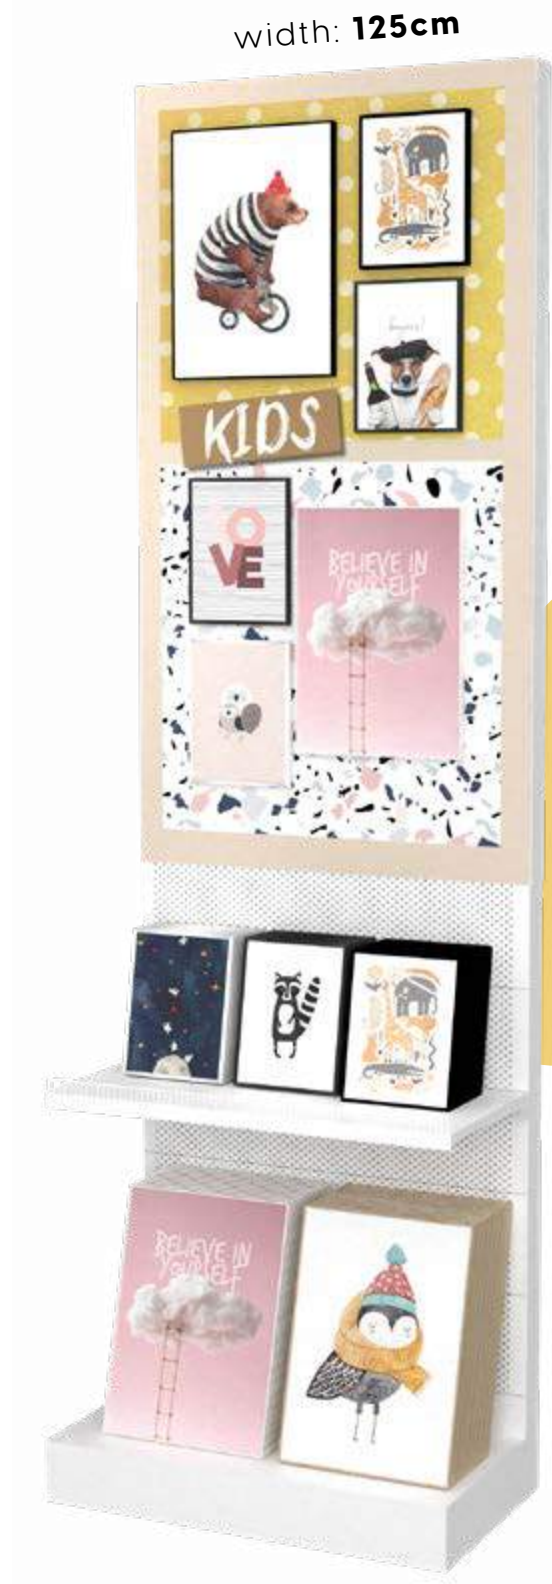

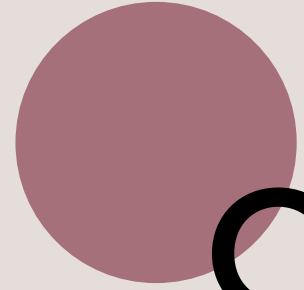

modern: kids

#pastel #scandi #cute

Arranging a child's room that is supposed to be cozy and stylish at the same time is a real challenge. It is worth combining well-known children's themes, which make our children smile, with fashionable accessories that will introduce an element of variety.
